.....

Bar Admission: Ontario, 2015

Areas of Expertise

- Derivatives
- Research

Mary Angela is an associate in the Research department. As a research lawyer, she focuses on finding creative and practical solutions to complex legal problems. Mary Angela has experience supporting corporate restructurings, environmental litigation, class actions, and tax litigation, with particular interests in contractual disputes, statutory interpretation, and conflict of laws. In addition, as a member of Osler's Research team, she is engaged across many areas of the firm's practice.

Mary Angela obtained her LL.B. and B.C.L. from McGill University. Before joining Osler as a summer student in 2013, Mary Angela worked in executive recruiting and covering financial markets. Prior to law school, she studied History and Literature.
